Education

- **Indian Institute Of Technology Kanpur** — Kanpur, UP, India
  *Bachelor Of Technology in Computer Science and Engineering; CGPA : **8.4**/10.0* — *2013 - 2017*
- **Shiv Jyoti School** — Kota, Rajasthan, India
  *Class XII (Board of Secondary Education, Rajasthan); Percentage : **90.20%*** — *2013*
- **St. Joseph Sec. School** — Jaipur, Rajasthan, India
  *Class X (Board of Secondary Education, Rajasthan); Percentage : **89.00%*** — *2011*

Online Courses

- **AI for Medicine Specialization**
  by deeplearning.ai on Coursera — *March 2020 - May 2020*
- **NLP Specialization : Classification and Vector Spaces, Probabilistic Models**
  by deeplearning.ai on Coursera — *June 2020 - July 2020*
- **TensorFlow in Practice Specialization**
  by deeplearning.ai on Coursera — *March 2020 - May 2020*
- **TensorFlow: Data and Deployment Specialization**
  by deeplearning.ai on Coursera — *April 2020 - June 2020*

Publications

- Amit Nagarkoti*, **Revant Teotia***, Amith K. Mahale, and Pankaj K. Das, "Realtime Indoor Workout Analysis Using Machine Learning & Computer Vision", *41st Annual International Conference of the IEEE Engineering in Medicine and Biology Society* (EMBC), Berlin, Germany, July 2019 (*-equal contribution) [paper]

Work Experience

- **Indian Institute of Technology Jodhpur** — Jodhpur, India
  Research Assistant in Vision, Language, and Learning Group (VL2G) led by Dr. Anand Mishra — *July 2020 - Present*
  - **Visual Entity Linking**
    - Working on the problem of Visual Entity Linking, exploring how deep neural networks could be used to link visual entities (objects, faces, and texts in images) to knowledge graph
    - Studying the potential of knowledge graphs in improving Visual Recognition and Visual Question Answering (VQA)

- **Samsung R&D Institute** — Bangalore, India
  Senior Software Engineer, Samsung Health Team — *July 2017 - July 2019*
  - **Fitness Machine Connectivity for Wearable Smartwatch using NFC/BLE** [news]
    - Worked in Health Service Team at Samsung HQ, Suwon, South Korea
    - Designed and developed the modules for **BLE-GATT communication** between Smartwatch and Fitness machines
    - Developed the modules for **NFC handshake** process for seamless and secure connection between Smartwatch and Fitness machines
    - Product released in late 2019 updates of Samsung Galaxy smartwatch series
  - **Virtual Coach Research Project** [paper]
    - Developed a system to evaluate user's performance while performing a workout following a reference video. The system detects deviations from the ideal body pose and suggests corrections
    - The system uses **CNNs, optical flow and DTW (Dynamic Time Warping) algorithm** as the core building blocks
    - Research published in **IEEE EMBC 2019**

- **SHealth MR for Wearable Smartwatches**
  - Worked on various modules in C/C++ for SHealth, which is a health and fitness tracking application developed on **Tizen Platform** available on Samsung Gear and Fit smartwatches
  - Different modules included sleep monitoring, heart rate monitoring, pedometer, swimming laps counting, calorie intake monitoring, and other such health trackers

- **Samsung R&D Institute** Bangalore, India
  Summer Intern, S-Voice/Bixby Natural Language Understanding (NLU) Team *May 2016 - July 2016*
  - **Voice Engine for Third Party Developers**
    - Worked in a team for designing a software which **enables third party developers to add voice functionality** to their projects
    - Devised and implemented the **context management** architecture for the third party voice engine

Academic Projects

- **Explorations in handwritten digit classification using the MNIST data** [presentation]
  Dr. Piyush Rai, Dept. of CSE, IIT Kanpur *July 2016 - November 2016*
  - Implemented and analysed different machine learning tools and algorithms to fine-tune and classify the MNIST data and achieve the best classification accuracy possible
  - Implemented PCA (principal component analysis) to project the data on the 50 most important directions to reduce the redundant data and decrease the data dimentionality
  - The methods that we considered included SVM, K-NN, Random Forests, Logistic Regression and LeNet (CNN method)

- **Classification of Emotions in music** [poster]
  Dr. Amitabha Mukerjee, Dept. of CSE, IIT Kanpur *January 2016 - April 2016*
  - Implemented and compared different classifiers to classify music (dataset included 903 clips of 30 second each) into 6 Clusters of emotions to get optimal classification results
  - Extracted different audio features like rms of loudness, MFCC, zero crossing rate, variance, and other spectral features to train classifiers
  - Manually fine tuned the parameters of different classifiers(k-NN, SVM, Naive Bayes etc.) using grid search and dimensionality reduction.

- **Chest X-Ray Medical Diagnosis and Brain Tumor Auto-Segmentation for MRI** [certificate]
  AI for Medicine Specialization Course, deeplearning.ai *April 2020 - May 2020*
  - Trained the top-layers of pre-trained *DenseNet121* model to diagnose pathologies (Pneumonia, Edema, Cardiomegaly) in Chest X-rays of *ChestX-ray8* dataset
  - Analysed and trained *3D U-Net model* for Volumetric Segmentation of MRI Images (DICOM format) with *Multi-Class Soft Dice Loss* as the loss function using the data from the *Decathlon 10 Challenge*

- **Compiler for NIM to x86 Assembly Language** [code]
  Dr. Subhajit Roy, Dept. of CSE, IIT Kanpur *January 2016 - April 2016*
  - Built a compiler from scratch using lex and yacc (tools for lexical and semantic analysis) in Python to generate x86 assembly language from NIM program
  - The compiler supported basic data types (INT, BOOL, CHAR, STRING), Arrays, Arithmetic and Logical Operators, if-else conditions, while loop, functions(including recursive) and type checking

- **NachOS operating system**
  Dr. Mainak Chaudhuri, Dept. of CSE, IIT Kanpur *July 2015 - November 2015*
  - Implemented process scheduling algorithms: UNIX Scheduling, First in First Out, Round Robin, Shortest Job First andNon-pre-emptive job scheduling to assess their relative performances
  - Extended the standard system call library of NachOS and implemented system calls pertaining to Fork, Exec, Join, Yield,Sleep and Exit
  - Programmed page replacement algorithms: Random Page Allocation, First in First Out, Least Recently Used(LRU) and LRUClock to evaluate relative performances under difference scenarios

Scholastic Achievements

- Secured **All India Rank-303** (top 0.2% among **150,000** candidates) in **JEE ADVANCED 2013**
- **JEE MAINS 2013** : Secured **All India Rank-94** (among **1.4 million**) and secured **State Rank-4** in Rajasthan
- **National Standard Examination in Physics 2012** : Got placed in **Statewise top 1%** in Rajasthan
- Cleared **National Standard Examination in Chemistry-2012** (Stage-1) and appeared in **INCHO 2013**

Technical Skills

- **Programming Languages/Scripts**: *Proficient* : Python, C/C++ ; *Familiar* : php, javascript, x86 Assembly
- **Software and Tools**: Git version control, GDB, MATLAB, Tizen-Studio, Latex, Jupyter/IPython Notebook
- **Libraries**: Scikit-learn, OpenCV, TensorFlow, Keras
- **Wireless Communication Protocols**: Bluetooth LE Generic Attribute Profile (BLE-GATT), NFC(basics)

Relevant Courses

- **AI**: Introduction to Machine Learning, Artificial Intelligence Programming, Introduction to Deep Learning*, Deep Learning for NLP*
- **Computer Science**: Data Structures and Algorithms, Introduction to Software Engineering, Computer Organisation, Theory of Computation, Operating Systems, Analysis of Algorithms, Compiler Design, Principles of Database Systems
- **Mathematics**: Linear Algebra, Probability and Statistics,Differential Equations, Single and Multi-Variate Calculus, Abstract Algebra, Logic in Computer Science, Discrete Mathematics

*-online courses

Extra Curricular and Voluntary Work

- **Student Guide**, Counseling Service IIT Kanpur (2014-2015 session)
  - Assisted in organizing the Orientation Program for the incoming batch of 830 students
  - Assisted several first year students personally in overcoming their initial anxieties and guided them so that they can settle down comfortably in the campus
- **Secretary, English Literary Society**, IIT Kanpur (2014-2015 session)
  - Organized hostel level activities of Hall-3 ELS
  - Assisted in organising various institute level events and competitions conducted by ELS IIT Kanpur
